

Scholastica

24-28 April 2012 (Business days 24-26 April)

Investing in your greatest asset

YOU!

Wondering what options you have after you finish school or college?
Want to improve your skills on the job or in your business?
Need some direction for your next career move?

Whatever your question, find answers at Scholastica 2012!

Scholastica is an annual specialised trade exhibition for the education, careers and training industry providing information, options and support to help you make informed decisions about your career development and your future.

Display the latest trends and innovations in your sector

We welcome exhibitors from all education and training-related fields such as universities, technical schools, educational and training institutions, Government Ministries, equipment suppliers, language centres, trade publications and services.

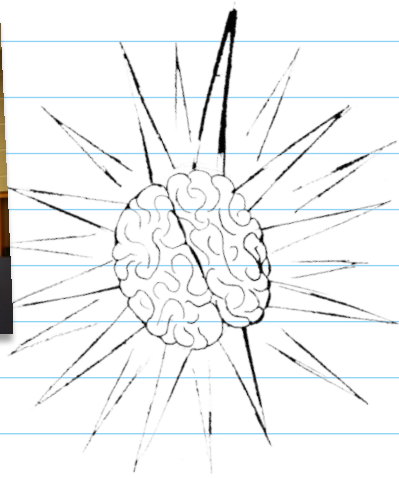

The product profile includes :

Education: software, materials, educational toys, training equipment, publications, books and training aids.

Equipment: computers, overhead projectors, audiovisual, educational and training stimulators, binding and laminating, laboratory and chemistry.

Others: memory training systems, school furniture, education, products/services for the disabled, corporate and industrial training programmes, technical skills training, stationery, training packages, sports and school clothing

Hall 3, Zimbabwe International Exhibition Centre, Bulawayo, Zimbabwe

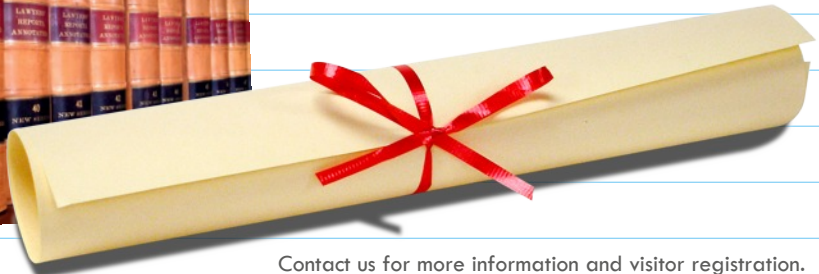

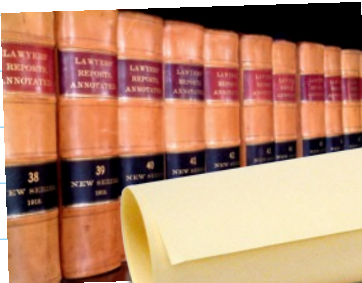

Visit, learn and evaluate options

The exhibition attracts visitors from educational and training organisations, Government officials and representatives, students, graduates, educational professionals, specialised researchers, foreign Embassies and Consulates, business executives and the general public.

Expo Highlights

24-26 April - We're calling industry experts to hold seminars and presentations for tertiary level students and business professionals promoting your industries, specific job opportunities and the value of training

27-28 April - We're calling career advisers to hold mini-workshops for young people and accommodate organised visits from secondary schools
